Urdu	Native

CAREER OBJECTIVE

Engineering graduate with an Advanced Diploma in Industrial Safety Management (ADIS) and currently pursuing NEBOSH IGC. Passionate about occupational health, safety, and environmental management with knowledge of hazard identification, risk assessment, Permit to Work (PTW), Job Safety Analysis (JSA), and construction safety practices. Seeking an opportunity to contribute to a safety-focused organization while continuously developing practical HSE expertise.

ADDITIONAL EXPERIENCE

Graduate HSE Trainee

Ahluwalia Contractors — Delhi, India

- Assisted HSE officers in conducting routine workplace safety inspections across construction activities.
- Participated in Hazard Identification and Risk Assessment (HIRA) and Job Safety Analysis (JSA) for various site operations.
- Assisted in the preparation and monitoring of Permit to Work (PTW) documentation for high-risk activities.
- Supported daily toolbox talks by maintaining attendance records and reinforcing key safety instructions.
- Monitored the proper use of Personal Protective Equipment (PPE) and reported unsafe acts and unsafe conditions.
- Assisted in safety observation reporting, housekeeping inspections, and follow-up on corrective actions.
- Gained practical exposure to scaffolding safety, excavation work, lifting operations, work at height, and electrical safety requirements.
- Maintained safety documentation, inspection records, and incident/near-miss reports under the guidance of senior HSE personnel.
- Developed a working knowledge of ISO 45001 principles, construction safety regulations, and safe work practices.

EDUCATION

Advanced Diploma in Industrial Safety Management (ADIS)

Rabiya Industrial Training Institute, Jamshedpur

- Studying international HSE standards, HIRA and JSA methodology, and construction/industrial hazard control.
- Fire prevention, emergency evacuation and fire extinguisher selection.

Bachelor of Technology

Maharishi Dayanand University, Rohtak

WHY HIRE ME

- ▶ Strong foundation in HSE and construction safety
- ▶ Knowledge of HIRA, JSA, Permit to Work (PTW), and construction safety practices.
- ▶ Quick learner with a proactive and safety-focused approach
- ▶ Analytical engineering mindset with attention to detail
- ▶ Effective communication skills for toolbox talks and worker safety awareness
- ▶ Committed to compliance and continuous professional development
